

Forestry investments

Mattos Filho prepares administrative defenses relating to landholdings and monitors administrative proceedings to bring land title into compliance with the law

With a deep understanding of Brazil's forestry and agribusiness sectors, in addition to extensive experience in rural property transactions, Mattos Filho assists its clients in deals involving:

- *In rem* surface rights;
- Usufruct;
- Leasing;
- Operational contracts;
- Bringing land title into compliance with the rules issued by the National Institute for Agrarian Reform – INCRA and with land registries throughout the country;
- Analysis and monitoring administrative proceedings related to land title;
- Purchase and sale of forests, wood supply, rural properties, leases and partnerships,
- Operational agreements.
